

# Lorre Walker

## Consultant & Project Manager

Lorre joined SSC in July, 2009 as a consultant and project manager. In addition to working with SSC clients, she assists with our business development effort, particularly responses to requests for proposals. Lorre started with SSC as an intern in the spring of 2008. During the internship, she worked on a variety of projects including the SSC Online Sustainability Assessment Tool (OSAT), wrote a white paper, "One-Minute Commute: Sustainability 101 for Home-Based Businesses", and partnered on several CSR reports.

In August, 2008, Lorre completed the SSC Green Audit certification course. She has conducted several green audits incorporating an on-site facilities audit, client workshop, and final results presentation. She advised green teams by identifying key environmental impacts, assessing challenges and opportunities, calculating carbon footprint, and creating a six-month action plan to kick-start sustainability strategy.

Prior to joining SSC, Lorre gained over 12 years of experience in report/proposal creation and print production management. She holds an MBA in Business Management from St. Edward's University in Austin, Texas and a BA in English from Texas Tech University.

While at St. Edward's, Lorre worked on several sustainability and corporate social responsibility (CSR) related projects. She researched CSR and sustainability issues and assessed the business ethics of for-profit and non-profit organizations through a methodology, which included collection and analysis of questionnaires, interviews of all major stakeholders (executives, employees, customers/donors, and vendors), and analysis of organizational policies, financials, and personnel documents. This assessment was used as the research for the annual Ethics in Business Awards program. She also wrote a paper "The State of Corporate Social Responsibility in the Czech Republic" that was published in *Arête* in spring 2007. As an alumni advisor, she supported an MBA capstone team with a sustainability plan for a Czech company, ORCO Real Estate.

Her work at SSC has included projects for the following:

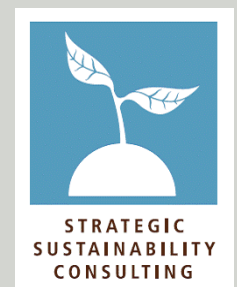

- NeighborWorks America
- Montgomery County, Maryland
- Market Penetration, LP

## SSC Team Profiles

*Lorre's sharp eyes go beyond detail-oriented into a calm dedication rarely found in someone so committed to both big picture and the details that build that picture. She can be trusted to speak her mind while remaining a keystone member of the team.*
